

JIM BARNA LOG SYSTEMS

LAYAWAY PROGRAM

Commit To Your Dream...and Save...up to 20%

J

Jim Barna Log Systems offers a convenient layaway program for those that are not quite ready to build...but have made up their minds to build with logs. You may not be in a position to take delivery today but you are in a position to freeze the price and pursue your dream of building a log home.

I

In our two-year layaway program, you start with a deposit of \$500.00 and monthly installments on the balance of your 10% down-payment. The balance of the down-payment is divided into 24 monthly payments with no interest charged. If a set of custom plans is ordered as part of the layaway program, you will receive your plans within 60 days from the time of your order.

M

More good news. Anytime within the two-year program you may take your order out of layaway with no penalty...you simply give us 30 days notice and we guarantee delivery.

B

Because we are in tune with customer needs, we now offer you an opportunity to commit to your dreams and save a great deal in the process.

A

Although 24 months may seem a long time off, that time will pass regardless of what you do. Your participation in the layaway program now can represent a 20% savings to you in 2 years.

R

Remember, at least you have taken the first step and a journey of a thousand miles starts with the first step.

N

Now that you have decided on a log home, you will have time to spend on locating the land and the many other items you have to consider and prepare for.

A

Allowing yourself ample time to prepare for your building project will come back to you many fold.
